REVOLUTION IN TEXAS.

It will be remembered, that, in the begin-
ning of her revolution, in 1836, Texas of-
fered large bounties in land to volunteers to
serve in her armies.
We can now offer, to the survivors, and
heirs of those who thus served, the recovery of
all the lands promised by the Government of
Texas. We are also prepared to prosecute all
Texas land claims regardless of date or char-
acter, whether Spanish, Mexican, or American.
Bounty, scrip, or headright. Having com-
plete access to the Muster rolls, Maps, Records,
and other documents in the Public Offices at
Austin city, we enjoy superior advantages for
investigations of all kinds in regard to claims.
We will give particular attention to the re-
covery of lands illegally sold, for taxes or
otherwise, and to estates which have suffered
from inattention or mismanagement of agents
or administrators.
To persons having land certificates for loca-
tion, we can offer particular inducements.
Our thorough and intimate knowledge of the
vacant lands and surveys of the state, obtained
from personal inspection, insures the most
favorable locations, and perfect titles.
Long experience, and close attention to the
land system and an accurate knowledge of
the different classes of titles, together with the
large amount of land registered in our office
for sale, enables us to furnish prompt and re-
liable information, and assistance to persons
desiring good homes, and to afford superior ad-
vantages to those wishing to make safe and
profitable investments.
We are offering for sale lands in every part
of the state—improved and unimproved,
every variety, and in tracts to suit purchasers;
also town and city lots—in short every kind of
real estate on the most favorable terms.
To persons having land in Texas for sale, we
would say, that we keep books, in which are
registered descriptions (furnished by the owners,
or obtained by personal inspection) and full
exhibits of title &c., of all tracts to be sold, thus
furnishing a cheap and effective mode of adver-
tisement. If desired, we will examine land in
any part of the state, ascertain its value, and re-
port faithfully. Registering for one dollar.
We invite the attention of MERCHANTS,
HOUSES, and individuals to our office as fur-
nishing a speedy and effective mode of collect-
ing.
By activity, energy, and fidelity to the in-
terests of our employers we hope to merit the
confidence of the business public.

PREPARATORY DEPARTMENT
OF
GEORGETOWN COLLEGE.WILL OPEN ON THE
3D MONDAY IN SEPTEMBER NEXT.

N. B. WALLER, A. M., Principal.

THE services of Mr. WALLER have been
permanently secured. He brings with
him a reputation as an accomplished and suc-
cessful instructor of youth, warranting the
belief that an institution can surpass this in all
that is necessary to prepare young men for
college most thoroughly or to lay the founda-
tion for a substantial and well ordered edu-
cation.

GEORGETOWN COLLEGE,
KENTUCKY.

THIS Institution occupies a high rank
among Western Colleges. Its Library,
Cabinet, Museum, and apparatus are un-
surpassed. Its literary course is the same as that
of Yale College, while its scientific course
embraces all the best portions of the course at
West Point.

For young men designed for practical busi-
ness there is a course of three years in which
a thorough knowledge is imparted in agricul-
ture, Chemistry, Physiology, Zoology, Practi-
cal Engineering, Principles of Commerce, and
Book Keeping. In this practical feature the
College is believed to be unequalled. Its high
aim is to furnish American scholars, and
American business men. The rapidly increas-
ing number of Students in attendance is proof
of its high rank and efficiency.

This seat of learning is no mere experiment,
whose permanence is doubtful, and whose di-
ploma is therefore of uncertain value. It is
in a position to exercise and maintain a whole
discipline without the fear of extinguish-
ment; and to require of its students every
thing scholarly and manly in their deportment.
It has boarding arrangements adapted to all
classes of students; and so adjusted as to
avoid the dangers inseparable from the prac-
tice of overcrowding 150 or 200 young men into
one building. Students for the ministry can
board for about \$40 per College year. Others
of known good moral habits, for about
\$65 or 70; while those who may prefer board-
ing in private families can do so at from \$80
to 100. No student is allowed to board in any
family but such as the Faculty shall approve;
and a strict but kind supervision is exercised
by the faculty over every student where-
ver he may board.

The scholastic year is divided into two
sessions. The first commences on the third
Monday in September; the second, on the first
Monday in February.

COMMENCEMENT DAY

Occurs on the last Thursday in June. Tuition
\$20 per session.
The annual catalogue may be had by ap-
plication to the President, Rev. D. R. CAMP-
BELL, L. L. D. S. F. GANO.

Their power over the above diseases is not
exceeded, if equalled, by any other prepara-
tion in the United States, as the cures attest,
in every case after skillful physicians have
failed.

These Bitters are worthy the attention of in-
valids. Possessing great virtues in the recti-
fication of diseases of the Liver and lesser
disorders, exercising the most searching powers
in weakness and affections of the digestive or-
gans, they are, without fail, certain and pleas-
ant.

H. W. Chaney, Millersburg, Ky., Oct. 16,
1852, said: "Having sold your Bitters some
time, I find it has given satisfaction in every
instance that has come under my notice."

Nelson & Edwards, Salina, Ky., June 24,
1851, said: "We rejoice to inform you that this
justly celebrated medicine has fully main-
tained the exalted reputation which has been
given it, and having tested its virtues we unhesi-
tatingly say it eminently deserves it."

J. T. & J. W. Berry, Uniontown, Ky.,
July 21, 1852, said: "We have heard of many
cures performed by the use of Dr. Hoofland's
German Bitters, and believe it to be a valuable
medicine."

These Bitters are entirely vegetable, they
invigorate and strengthen the system, never
prostrate it, and can be used for infants as

CARTER'S
SPANISH MIXTURE

The Great Purifier of the Blood!

Not a particle of Mercury in it.
AN INFALLIBLE REMEDY FOR SCROFULA, King's
Eruptions, Pimples or Pusules on the Face,
Blotches, Boils, Chronic Sore Eyes, Ring
Worm or Tetter, Scald Head, Enlargement
and Pain of the Bones and Joints, Stubborn
Ulcers, Syphilitic Disorders, Lumbago, Spinal
Complaints, and all Diseases arising
from an impure blood of Mercury, Im-
purity in Life, or Impurity of the Blood.

This valuable Medicine, which has become
celebrated for the number of extraordinary
cures effected through its agency, has induced
the proprietors, at the urgent request of their
friends, to offer it to the public, which they do
with the utmost confidence in its virtues and
wonderful curative properties. The following
certificates, selected from a large number, are,
however, stronger testimony than the mere
word of the proprietors; and are all from gen-
tlemen well known in their localities, and of
the highest respectability, many of them now
residing in the city of Richmond, Virginia.

F. BOYDEN, Esq., of the Exchange Hotel,
Richmond, known every where, says he has
seen the Medicine called CARTER'S SPANISH
MIXTURE administered in over a hundred cases
in nearly all the diseases for which it is re-
commended, with the most astonishingly good
results. He says it is the most extraordinary
medicine he has ever seen.

AGUE AND FEVER—GREAT CURE.—I
heretofore certify, that for three years I had Ague
and Fever of the most violent description. I
had several Physicians, took large quantities
of Quinine, Mercury, and I believe all the
Tonics advertised, but all without any perma-
nent relief. At last I tried CARTER'S SPANISH
MIXTURE, two bottles of which effectually
cured me, and I am happy to say I have had
neither Chills or Fevers since. I consider it
the best Tonic in the world, and the only medi-
cine that ever reached my case.

JOHN LONGDEN.
Beaver Dam, near Richmond, Va.
C. B. LUCK, Esq., now in the city of Rich-
mond, and for many years in the Post Office,
has such confidence in the astonishing efficacy
of CARTER'S SPANISH MIXTURE, that he has
bought upwards of 50 bottles, which he has
given away to the afflicted. Mr. Luck says he
has never known it to fail when taken accord-
ing to directions.

Dr. MINGE, a practicing Physician, and
formerly of the City Hotel, in the city of Rich-
mond, says he has witnessed in a number of
instances the effects of CARTER'S SPANISH MIXTURE,
which were most truly surprising. He says
in a case of Consumption, dependent on the
Liver, the good effects were wonderful in-
deed.

SAMUEL M. DRINKER, of the firm of
Drinker & Morris, Richmond, was cured of
Liver complaint of 8 years standing, by the
use of two bottles of Carter's Spanish Mixture.

GREAT CURE OF SCROFULA.—The Edi-
tors of the Richmond Republican had a ser-
vant employed in their press room, cured of
violent Scrofula, combined with Rheumatism,
which entirely disabled him from work. Two
bottles of Carter's Spanish Mixture made a
perfect cure of him, and the Editors, in a pub-
lic notice, say they cheerfully recommend it
to all who are afflicted with any disease of the
blood.

STILL ANOTHER CURE OF SCROFULA.—
I had a very valuable boy cured of Scrofula
by Carter's Spanish Mixture. I consider it a
truly valuable medicine. JAMES M. TAY-
LOR, Conductor on the R. F. & P. R. Co.,
Richmond, Va.

SALT RHEUM OF 20 YEARS STANDING
CURED.

Mr. JOHN THOMPSON, residing in the
city of Richmond, was cured by three bottles
of Carter's Spanish Mixture, of Salt Rheum,
which he had nearly 20 years, and which all
the physicians of the city could not cure. Mr.
Thompson is a well known merchant in the
city of Richmond, Va., and his cure is most
remarkable.

WM. A. MATTHEWS, of Richmond, Va.,
had a servant cured of Syphilis, in the worst
form, by Carter's Spanish Mixture. He says
he cheerfully recommends it, and considers it
an infallible medicine.

RICHARD E. WEST, of Richmond, was
cured of Scrofula, and what Physicians called
confirmed Consumption, by three bottles of
Carter's Spanish Mixture.

EDWARD BURTON, Commissioner of the
Revenue, says he has seen the good effects of
Carter's Spanish Mixture in a number of
Syphilitic cases, and says it is a perfect cure
for that horrible disease.

WM. G. HARWOOD, of Richmond, Va.,
cured of Old Sores and Ulcers, which disabled
him from walking. Took a few bottles of
Carter's Spanish Mixture, and was enabled to
walk without a crutch, in a short time perma-
nently cured.

GALLERY OF ART!

S. T. BANCROFT,

HAS fitted up a PORTRAIT GALLERY, two
doors below his former studio. The ad-
vices are especially invited to call and examine
his walls. Ladies you cannot show your lovely
faces in his room too frequently. Come often
and fall not to bring your friends. All gen-
tlemen who have a love for the beautiful are cor-
dially invited to his Gallery. Mothers, would
you have ever present with you your darling
children as they now appear? Get their por-
traits—Children would you have your parents' por-
traits as a rallying point around which the
affections can gather when time shall have ef-
faced from your memory the brightness of
your mother's smile, the approving looks of a
fond father?—Get them painted. Young Wives
and exposed to the sun, will surely fade.
Husbands shall sit for their portraits. It is
so difficult to foretell the future. There is
such an uncertainty in human affairs; a word
to the wise is sufficient.

THE IMPORTED BULL

PATHFINDER

WILL be permitted to serve a few fine
Cows at twenty five dollars to ensure a
cow with calf.

Not more than ten cows can be received be-
fore the first of July, as his engagements are
nearly complete up to that time.

In offering the services of this bull to the
breeders of fine blooded Cattle, we invite their
most critical attention to his pedigree, as be-
ing if not unequalled, certainly unsurpassed
in the variety and purity of its crosses, by
that of any animal ever imported into Ameri-
ca.

His pedigree on the dam's side will be found
in the Kentucky Cultivator.

The pedigree of his sire are much too
long for insertion in any public print. We
will therefore only state now, that among his
most immediate Grandfathers in the Herd Book,
are to be found the names of such bulls, as
Buchan Hero (3238), Sir Thomas Fairfax
(5196), Norfolk (3377) & Bates' second Hubbs
(1838) through whom he descends in a
direct line from Mr. Bates' celebrated Cow-
drees 1st, the great original of what is
known as the "Duchess strain" of short horns.

The Bulls named above were all winners of
prizes in England and accurate Engravings of
the first three are given in the Herd Book,
from which breeders may determine accurately
by the merits and demerits of this strain of
stock.

The pedigree of Pathfinder is peculiarly
exempt from the evils of too close breeding,
indeed no "in and in" cross can be found in
it, and we therefore have every reason to an-
ticipate vigor of constitution and symmetry of
form in his calves.

Cows sent from a distance will receive
every attention, but we will incur no liability
for accidents.

THE PURITAN.

The old Puritan was a solemn man,
Sombre and sad were his features,
He talked through his nose and he wore plain
clothes.

And seemed the forlornest of creatures.

Did he happen to grin, he believed it a sin.

And took it to heart quite severely.

But should Satan provoke him to laugh at a
joke,

He repented it very sincerely.

Amusements, he thought, were with mischief
full fraught,

Songs and dances were nothing but evil,
While cards, dice and plays, and all church
holidays,

Were snares set for souls by the devil.

All ornaments too did he strictly eschew.

They but filled him with horror and dread;
His own natural hair he would not even spare,
But wore it cropped short round his head.

Deprived of all games, his boys had old
names;

His first might be "Israel increases!"—
His second, perchance, would be "Buckler
and Lance!"

And another, "How Agag in pieces."

With powers of the air, and ghosts foul and
fair,

He had daily to combat and wrestle—
Yet was mere "potter's clay" in the Lord's hand
he lay.

So he spoke of himself as a "vessel."

On Sundays his house was as still as a mouse—
The high-ways were almost as quiet;
The church-warden stout caught the boy who
was out,

And gave him the stocks and low diet.

When laid up in arms insulted their *marry*,

They were put on a par with blasphemers.
To be pelted with stones till the flesh left
their bones,

Was the law for such wicked young scer-
ners.

The youth who would wed a coy, Puritan
maid,

Before old folks had to court her,
And quite sure was to find a huge flea
in his ear if he failed to support her.

The duty of life, then, for man and for wife,
Was to labor six days out of seven;
On the seventh, in the best of their toggery
drest,

To work harder to get into heaven.

Foul weather or fair, they were constant in
prayer.

But to thrift all the time kept a squire.

And in matters of trade, when a bargain they
made,

Their faces were set like a flint.

Innovations in faith they opposed unto death;

At the cart's tail they dragged the poor
Quaker;

With derision and jeers they cropped heretics'
ears,

The Improved Yorkshire Hogs, THE BEST BREED FOR KENTUCKY.

The question is often asked and especially by strangers what is the best breed of hogs in Kentucky, and it seems at first a little strange that no satisfactory answer has been given to this inquiry. This question might be very properly met by another, (viz) what do you wish to do with them. The qualities and characteristics of a breed of hogs, in the vicinity of a large city, ought to be and are very different from those of cattle feeding districts, or in fact from those of all countries where an immediate market for every description of live stock is not available. In England where such a market always exists, the great object of cattle and sheep breeders has been to cultivate that sort of animals, which would produce the most flesh at the earliest age. The attempt has been made, and is now making, to apply this principle to breeds of hogs in Kentucky. But it really seems to me to have a very limited application to the wants of this portion of the state at least. Here we slaughter our hogs but once a year. And from the peculiar manner of feeding practised by our cattle breeders, those animals must necessarily be from fourteen to sixteen months old when killed, consequently the breed we should have, is not that which can be most thoroughly fattened at eight or ten months old. But that which will give the largest return in flesh for its keep until the age at which they are usually slaughtered. The possession of such a breed by our cattle feeders is not merely a matter of taste, but almost a necessity, as a breed of hogs of such early maturity as to ripen in flesh before a market opens for them, would be not only an inconvenience but very expensive; moreover there is much doubt if animals having such a remarkable propensity to take on flesh when very young, possess the requisite hardiness to meet the exposure encountered by hogs which follow cattle.

The Yorkshire hog is a very happy medium between those short and small but highly improved breeds, and the large long legged, long nosed and long feeding animals that have now so generally overrun the country.

This breed was imported to the United States last winter by the Scott Co. Importing Company.

They are sometimes called in England the Liverpool Whites, being uniformly of that color. They are distinguished by their extraordinary length of carcass as compared with the shortness of the legs; they are remarkably round and deep, with great width over the chine and along the back, their hides are soft and smooth, their ears thin and pendant, but not so drooping as the Woburn and some other of our large breeds. Their general appearance is one of remarkable symmetry combined with great size and vigor of constitution, and are the only breed used for packing purposes in the vicinity of Liverpool, Portsmouth and other large seaports. They certainly possess all the characteristics which indicate large size and rapid growth. The result of my own observation is a full conviction that in the usual age for slaughtering, they will produce a greater quantity of such pork as is preferred by our packers than any breed whatever.

Having had a considerable experience with nearly all the old importations of hogs, I can say with certainty that the cross of this breed upon my present stock has produced an improvement in them beyond all comparison, with any I have ever before been able to effect.

I shall probably exhibit some of them, at the fair at Lexington this fall, and will be very happy to show them at any time to persons interested in stock breeding, at my farm.

Capt. Craig's Speech.

Capt. Newton CRAIG addressed a large audience at the Court House on Friday night, and spoke some two hours in full exposition of his course in relation to Miss Delia Webster, and of the circumstances of the recent dastardly attempt upon his life at Madison, Ind. He explained how, during her imprisonment in the winter of 1844-5, he was induced to believe that she was an innocent and pious girl, and how in that belief he befriended her, and aided her by lending her money after she had been pardoned by the Governor and had come to reside at Madison; but he did not advise her pardon, but on the contrary opposed it, nor did he procure her return to the West. He explained also how he repudiated her and her friendship when he became convinced that she was false and wicked; and how he afterwards brought suit against her for money loaned, &c. He denied that he instigated or procured her recent arrest, that being the act of the people of Trimble county, through an agent appointed by them.

His attendance at Madison was in consequence of a request from the agent appointed to receive her under the requisition of the Governor of Kentucky, and for the sole purpose of proving her identity as the person imprisoned in the Penitentiary in 1844-5, should that question be raised by her counsel, as it was apprehended it would be. He denounced as utterly false the story that he drew two revolvers and two bowie-knives from his pocket upon going to his room at the hotel, and laid them upon the table, with words of defiance against all Madison. He had no weapon with him but a bowie knife and that was in his carpet bag, which was left in the bar. At the request of M. G. Bright, Esq. one of the counsel for the Commonwealth, he kept in his room as much as possible, and entirely avoided all irritating remarks or actions.

Capt. C. denounced in strong terms Jos. Marshal, Esq. one of Miss Webster's counsel, who, as he was reliably informed, exerted all his powers in his speech to inflame the crowd against Kentuckians, and at the conclusion of the trial the mob around cried out, "Now let us give Craig a—!"

Captain C. was immediately notified that he had only two hours given him to leave town, or he would be killed. Friends called and urged him to cross to the Kentucky shore by the ferry boat. He told them his way home was by the mail boat. She was expected in four or five hours. When she came he would go on her, but no power on earth could compel him to go sooner, or in any other way. After a while the rabble, thirsting for blood, had filled the bar-room. His only weapon was in his carpet bag in that room. He walked deliberately in among them, picked up his carpet bag, took it up stairs, and put on his knife. When the hour for the boat approached, he walked to the wharf, no one molesting him. Soon a crowd of hundreds came down. They began to beat a few Kentuckians; Captain Craig was about to rush in to their aid, but a friend restrained him, saying it was all a plan to get him into the fight and kill him. His friends urged him to go to another wharf boat, a few yards off. He started, but a fresh attack by ten or a dozen upon one Kentuckian was more than he could stand. He turned to rush in, but several strong men (afterwards found to be friends) seized him around the arms and dragged him away to the other boat. There he stood on the end of a gangway where it reached the boat, facing the mob of several hundred who stood on the shore, cursing him and threatening his life in the most outrageous and blasphemous manner. He told them they could kill him, but they could not drive him nor scare him. Some friends emerged from the crowd and shook hands with him. While talking with them, a large part of the crowd got on board the boat. It was full of people, but he was not molested. A steamboat came, (not the one he intended going on) and in landing struck the wharf boat so hard that it jarred all upon it, and produced a momentary commotion. At that instant he was shot in the back. He turned and saw the pistol towered and the assassin dodge through the crowd.

The result produced in the large audience a universal and intense loathing and indignation at the cowardly malice of the mob, and of those who set them on; and a high appreciation of the courageous conduct and upright intentions of Capt. Craig.

A Daily Mail Once More.
As we have before said that we were confident the department would restore a Daily Mail on the route between this place and Maysville, so soon as properly informed of the derangement existing under the new contracts, we were not surprised at the good news contained in the following letter:

POST OFFICE DEPARTMENT,
CONTRACT OFFICE.
July 21, 1854.

Sir:—I have the honor to state that the Postmaster General has ordered an extension of Route No. 8255—Maysville and Millersburg—to end at Paris; as an increase of the whole service to SIX TIMES A WEEK.

Very respectfully,
Your obedient servant,
W. H. DUNDAS,
2nd Asst. P. M. General.

HON. JOHN C. BRECKENRIDGE,
House of Representatives.

We rejoice, with our fellow-citizens generally at this change, and hope that no dissatisfaction against the Department will be hereafter expressed. The blame never should have rested there. Much credit is due to our faithful and talented Representative, HON. JOHN C. BRECKENRIDGE, for his promptness in bringing the matter before the Department in its true light. No sooner was he advised of the disadvantages resulting from withdrawal of the Daily service upon this route, than he went to work and never relaxed his efforts until he had the old order of things restored. Such a Representative is worth having, and it will be long before the 8th district will find a man more eminently qualified to the duties imposed upon him. No district Union States is more ably represented in Congress than the 8th district of Kentucky, and our people are truly proud of their man.—*Flag.*

FRIGHTFUL CASUALTY.—On Monday last, Mr. Hubbard V. Varnon, of this county, was in the stable currying his imported bull Javelin. Wishing the bull to change his position, he struck him two or three times with a cowhide, when the animal became enraged and sprang at him, breaking the halter with which he was tied, and throwing Mr. Varnon upon the floor near the wall. The bull then fell upon Mr. Varnon's chest with his knees and attempted to gore him to death, and was prevented from doing so only by the protection afforded by the wall of the stable. Some negroes working near, heard the noise, and running to the assistance of their master, succeeded with much difficulty in beating the enraged beast off.

Mr. Varnon was badly hurt, but we are glad to learn is now recovering. His collarbone and one or more ribs were broken, and his breast was very much bruised. It was feared that he had received serious internal injury, but it is now hoped that such was not the case.

Citizen.

It is singular what an extraordinary change public opinion (which means the opinion of a few individuals who happen to occupy public positions) has undergone recently with regard to the true merits of the Ward case. Our esteemed contemporary, the editor of the Georgetown Herald, who once expressed the opinion that the murder of Butler was a "fiendish and atrocious crime," has suddenly become convinced that it was only an "unpremeditated crime—manslaughter—even if he was not justly entitled to acquittal by an honest and conscientious jury, on the plea of justifiable homicide." Several of those honest jurors, by the way, have since been indicated for perjury; and the probability is, that eleven of the twelve will yet find themselves in a similar predicament.) From a hasty perusal of the Herald's article, we were unable to ascertain clearly, the reasons which had caused this extraordinary change of opinion on the part of the editor; but we intend to examine it more attentively hereafter, and perhaps we may yet be able, with the aid of our Georgetown friend, to convince somebody that murder is not murder, when committed by a young gentleman who is very wealthy, rather sickly, and somewhat weak in the legs, withal.—*Ploughboy.*

Particulars of the Murder at St. Nicholas Hotel.

The following are the circumstances, as given in the New York Times, by which Dr. Graham, of New Orleans, murdered Col. Loring, of California:

During the latter part of Tuesday, Dr. Graham, went on a "speer," and created serious disturbance in various parts of the hotel. One of these scenes took place in the bar-room. At a late hour of the night on Tuesday, the Doctor was induced to retire to his room, where he remained quietly until toward daylight. He then arose, and wanting some water went to pull the bell of his own room, but it was out of order. He then went to ring the chambermaid's bell, in the hall very violently, and such a length of time that Col. Loring and his wife, (who was quite ill), were unable to sleep. The colonel finally requested Dr. Graham to desist in annoying them in that manner; but he paid no attention to the entreaties; and continued to ring this large bell with great rapidity. At last the patience of Mr. Loring became exhausted, and against the will of his wife, partially dressed himself, hastened down to the office and requested the officers of the hotel to remove the noisy man.

As he was ascending the first flight of stairs on his return to his room; he was met by Dr. Graham, who roughly exclaimed, "You are a liar," which insult the Colonel at once resented by slapping his assailant's face with his open hand. The Doctor then raised a heavy sword cane, which the Colonel caught by the sheath and jerked away, thus leaving the blade and handle in the right hand of the culprit. The sudden jerk caused the Colonel to turn partly around, and no sooner had he done so than Graham plunged the weapon into his victim's left side with great force, and in pulling it out he turned and twisted it with all the strength he was possessed of, and when he had hauled the sword out of the body it was bent in a circular form. The dirk entered the heart and lungs of Colonel Loring, and he staggered and fell to the floor lifeless.

The murderer took it all very calmly and even went to the "pitcher pantry" and tried to conceal the instrument of death under some rubbish. He was secured through the exertions of Charles M. Rogers, Esq., and others of the hotel.

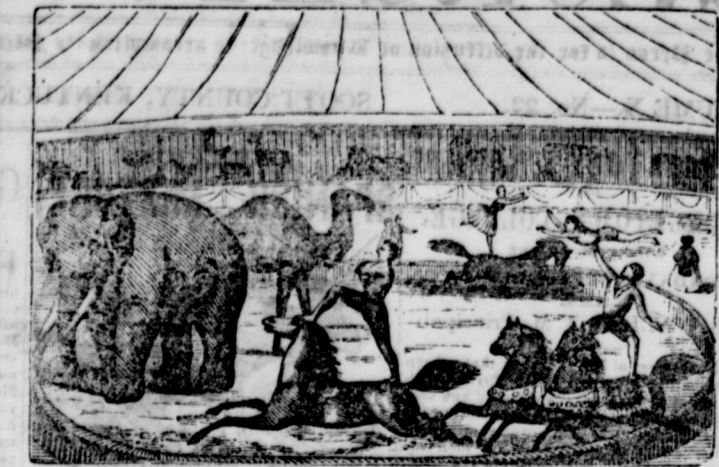

In 1650, a trial took place in Connecticut, under the section of the Blue Laws prohibiting kissing. The offenders were Sarah Tuttle and Jacob Newton. It appears that Sarah dropped her gloves, and Jacob found them. When Sarah asked for them, Jacob demanded a kiss for his pay, and as the demand did not seem extravagant, she adjusted it for him. The facts were clearly proved, and the parties were each fined twenty shillings.

A female member of Dr. S.'s Church, having safely passed through her nineteenth accouchment, her husband sent the Rev. Dr. the following note to be read before the congregation: "Mrs. A. having been safely delivered of her nineteenth child, she with her husband, would return hearty and unfeigned thanks to the Almighty God for his great favor, and humble ask for a continuance of his blessings."

How to catch a YANKEE.—A letter from Whitehead, in Kansas Territory dated 1st inst., to the New York Herald, says:

The amount of immigration in the way of men and cattle is surprising. Thousands and thousands are pouring in from all portions of the Union, but more especially from Missouri, Kentucky, and Tennessee. It seems to be a purpose premeditated to have it a slave State. There is a story abroad, that at all the forries over the Missouri River they have a committee and a committee to watch all immigrants. The committee ask of each immigrant what animal that is. If he says "A Cow" all well—he goes over. But if he answers, "A keese," they turn him back.

"Dicky" and "Susy."

Dicky was poor; Susy had a rich mother; Dicky loved Susy, and vice versa; Dicky wanted to marry. Susy's mother was 'down; on that measure; Dicky was forbid the premises; notes were exchanged through a knot-hole in the high board fence that encloses the yard.

One day the old lady went out "calling" and Dicky was duly informed of the fact; called on Susy; remained a little to long; old lady was close at hand; no chance to escape without detection. At the instance of Susy, Dicky popped in a closet; old lady saw that Susy looked confused; guessed that Dicky had been about, but supposed of course, he had rendered good his escape; thought perhaps the young couple had agreed to elope together; determined to be too smart for them; accordingly shut Susy up in the same closet where Dicky was concealed, and giving her a pair of quilts and pillow, locked her up for the night; didn't see Dicky; next morning went to the closet to let Susy out.

"Oh, Lord!" (a scream,) couldst breathe for a moment. Finally—"Ahem! Dicky, is that you?" "Yes, ma'am."

"Susy, dear, go and see about the breakfast"—[Exit Susy.]

"Dicky, you must stay and take breakfast!"

"Couldn't ma'am."

Old woman, all smiles, "Oh but you must, Dicky!"

"Dicky concluded to stay."

Scene Second—Breakfast table.—Old lady seated on the right, with the coffee pot in hand.

"Dicky, I've been thinking about you a good deal lately."

"So I suppose, ma'am—very lately," said Dicky.

"You are industrious, and honest, I believe, Dicky?"

"I never brag ma'am," was Dicky's answer.

"Well, now, on the whole, Dicky, I think you and Susy had better get married!"

HORRIBLE.—The Louisville Courier of the 29th gives the following important rumor of the bloody "Know Nothings!"

KNOW NOTHING LODGE.—It is generally rumored about the city that the Know Nothings have leased the Kosuth House; on Fifth street, for a term of years. It is being fitted up into 76 rooms, 100 feet long, by 2 in width. A pit is being dug in the cellar of unfathomable depth; where all refractory members will be dropped.

NOTICE.—We learn from the Paris Citizen of the 4th inst., that the corn crop in many parts of Bourbon county has suffered much from the want of rain, and that very inferior crops will be made.

NOTICE.—Is hereby given to the traveling community that there is a Stage Line leaves Georgetown, Mondays, Wednesdays and Fridays at 6 o'clock A. M. for Paris connecting at that place with coaches that take passengers direct to Cynthiana and thence by Railroad to Cincinnati—and same coach leaves Paris for Georgetown same days at 4 P. M.

Our esteemed friend of the Ploughboy is apparently anxious to know why we have reversed our opinion respecting the guilt of Matt. Ward? We thought that we had been so explicit that "the wayfaring man, though a fool!" might understand us; but some minds are remarkably obtuse! and as the mind of this inquiring editor appears to be of that peculiar caliber, we will benevolently give him a special reason for the reversal of our decree in the case of Mr. Ward. We reversed our decree, after calm, candid and mature consideration of the evidence, for the same reason that after having been a Whig for years, we twice in succession voted for a Democratic Congressman, to-wit: because in our heretofore expression of opinion, (in both cases) we were conscientiously convicted of an "error of judgment." A kind of conviction which we presume has never reversed the opinions or actions of our sapient friend of the Ploughboy!

Is this a sufficient reason for the great and glorious expounder of Democratic sentiments, who presides over that tenth luminary of the world, the Harrodsburg Ploughboy? Or are we to infer that he is one of those giants of intellect—one of those immaculate beings, who never err in judgment; and hence can discover no reason for a change of opinion by his more humble compeers who do not pretend to such giant intellect and infallible judgment as he does? Or rather may we not infer, to quote part of our own article, that he "is either a fool, (a wise man changes; the fool never) a knave, or a coward, who would refuse to avow change of sentiment when his reason had convicted him of having entertained (and expressed) erroneous opinions on any subject?" One inference, we think, friend Gibbons, is about as pertinent and as applicable to your honor, as the other; but as we have "a fellow feeling" for Democrats but not for demagogues, and are neither "sickly, wealthy or weak in the legs," you are at liberty to take either horn of the dilemma!

Yorkshire Hogs.

An interesting and able article on the subject of the best breed of Hogs for Kentucky will be found in another portion of this paper. This is a subject of great interest to our agricultural readers, and as the facts set forth in the article may be relied upon, it is eminently worthy of their perusal and consideration. He who causes a blade of grass to grow where none grew before is a public benefactor; and the introduction of a new and profitable breed of stock is at least worthy of as much commendation. We therefore recommend the careful perusal of the article, and the adoption of this new breed of Hogs, so highly and so justly commended by Mr. Webb, to the farmers of Kentucky.

MIKE ALLEGRA, who like the feline species, always talks upon his feet, drop him what height you will, is out in a card to the public, repudiating the petty honors of political life, and calling aloud for what no one has a right to deny him—his just dues. Furthermore, Mike purposes to serve the public, in his usual clever and accommodating manner, by keeping a livery stable in which he will be assisted by that worthy citizen and clever gentleman, JOHN H. WEBB, than whom few know better how to manage unruly quadrupeds and rebellious animals! See MIKE's card, obey his requisitions, and encourage the enterprise of "Young Germany!" if you wish our friend Mike to have abundance of domestic felicity (as who does not) and "some to spare!"

ROBERT W. WOOLEY, Esq., has been elected by the Council a Trustee of Transylvania University, in behalf of the city of Lexington in place of H. C. Pindoll, Esq. resigned.

VENI VIDI VICI!!! FULVERMACHER'S

Hydro-Electric Voltaic Chains!

ARE for the first time, presented to the people of Georgetown and vicinity, as a new, scientific and convenient mode of applying Electro-Magnetism, in the instant relief and permanent cure of all nervous diseases Rheumatism, Paralysis of Heart, Painful & Swollen Joints, Rheum. pains of chest, Neuralgia of the Face, Female Diseases, Deafness, Blindness, General Debility, Dyspepsia, Flatulence, Contracted Limbs, Pains in the Back, Paralysis, Sciatica, History.—Fulvermacher's Chains were first introduced into this country about one year since, in the City of New York, where they were subjected to the most rigid and thorough trial in every hospital in that city, by Professor Valentine Mott, Van Buren, Post, Carman who at once discovered that they possessed strange and wonderful power in almost instantly relieving all nervous pain wherever located; and so satisfactory were the results produced, in every case, that their opinions were published through the public press, and thousands have been induced to try them, and in no single instance have they failed to perform all we advertise to do. They are patented in this country, France, England, Germany, Austria and Belgium, and are in use in every hospital in Europe, and also in every hospital of N. Y. City.

No other Medical Agent can produce so many well authenticated Certificates of cure—not only from intelligent patients, but from Scientific Physicians, and their cases wherever introduced have been unparalleled.

The chains are so constructed as to be worn near the skin, producing a constant current of Electro Magnetism—can be used by either adults or children never get out of repair, and with proper care will last for years. Price of Chains, \$3 and \$5, and can be sent by mail to any part of the country. A pamphlet of 36 pages always accompanies each chain, and can be had of any agent, gratis.

CAUTION TO LADIES.—Ladies who are enciente are requested not to use them for a great length of time only for a few moments; for by continued use, miscarriage is frequently produced. For Uterine Pains, one end of the chain is to be applied over the abdomen, and the other upon the spine, just above the hips.

PERIODICALS.

The second number of the West American Monthly, formerly the Parlor Magazine is received. This valuable publication is much improved, both in appearance and contents, and it is now the aim of its proprietors to make it a fair representative of West American Literature, sentiment and execution in the typographical art and as they have recently refuted their establishment entirely, they are now in a favorable position to redeem their promise to the public, of producing a magazine that will deservedly rival the issue from any press in the country. Terms invariably in advance \$2. Address Jethro Jackson & Co., 103 Walnut street Cincinnati, Ohio.

We take pleasure in acknowledging the receipt of Arthur's Magazine for August. Our fondness for the presence of this periodical in our reading room and our conviction that it is decidedly one of the most worthy of our knowledge might induce us to say much in its favor, if we were not aware that its own celebrity, is powerful enough to secure its merited patronage. No one claiming a refined literary taste, should neglect to add Arthur's Magazine to his library, and no one so claiming can ever regret the favor bestowed. Terms one copy for 1 year \$2; 2 copies one year \$3; 3 copies one year \$4; 4 copies one year \$5. Six months subscriptions taken at half these rates. Address T. S. Arthur & Co., 107 Walnut street, Philadelphia.

The wide-spread and well established fame of Blackwood, renders it unnecessary that we should add anything to secure its patronage. Our readers should be reminded, that as new volumes of the Magazine and the four Reviews commence with the last number of Blackwood, this is a favorable time for subscriptions. Price for Blackwood one year \$3; Blackwood and one Review \$5; Blackwood and four Reviews \$10. Address Leonard Scott & Co., 79 Fulton street, Entrance 54 Gold street, N. Y.

The LADY'S CHRISTIAN ANNUAL, a very neat and cheap octavo sized magazine, designed especially for the ladies but entertaining and suitable for all, is published monthly by James Challen, Philadelphia.

The Annual contains for each month 32 pages, well printed on excellent paper, and if bound at the end of the year makes a volume of about 400 pages. Terms invariably in advance. Single copy one year, \$1; Six copies one year, \$5; Thirteen copies one year, \$10; Twenty-five copies one year, \$20; Fifty copies one year, \$35. Address James Challen, No. 5, Hart's Building, 6th above Chestnut, Philadelphia.

By the receipt and examination of a newly established periodical, the 'United States Magazine,' we have an opportunity of introducing to the public an issue that fairly promises to excel many of its rivals.

Its contents are varied, and well selected and arranged, and it appears to be efficiently edited, of more than ordinary size and devoted mainly to Science, Art, Manufactures, Agriculture, Commerce and Trade. Published monthly by A. Jones & Co., 1, 3, 5 and 7 Spring street, New York. Terms only \$1 per annum. Pamphlets sent (post free) for 6 cents for number.

The ELECTIC MEDICAL JOURNAL can be obtained by addressing Dr. R. S. Newton, corner of College and South streets, Cincinnati, Ohio. Terms \$2 in advance.

We have received the first and second parts of a book by John Smith, entitled 'Fruits and Farinacea,' designed to prove from History, Anatomy, Physiology and Chemistry that fruit and vegetables are the originally designed, and therefore the best food for man.

Judging from the parts received this will probably be a work of interest and information, and as such should be patronized and appreciated by the public. It will be sent (post paid) complete in one volume, handsomely bound for \$1.25. Address, post paid, Fowler & Wells, 308 Broadway, New York.

Our friend TRIMBLE advertises the public that he is prepared to accommodate them with anything in his line of business from vegetable tonics up to ideas conveyers, alias superior ink! the virtues of which we have tried, and find all that he represents it to be, as this paragraph bears witness. Note advertisements and give him a call.

In Franklin, Herndon is judge; Rennick, County Clerk; Morris, Sheriff; Major, County Attorney; Brawner, Jailor; Smith, Assessor; Graham, Coroner; Graham, Surveyor; Prætt, Constable. The road tax has been carried.

Capt. Newton Craig was in town on Monday last, and proposed to give our citizens a statement with reference to the Madison outrage; owing to the fact, however, that he is still suffering from the wound received, he was dissuaded from doing so by his professional friends. On next County Court day the Captain will be here and give a full statement of the facts; showing the distasteful efforts of the Abolitionists of Madison to overawe and over power, and their utter disregard of that comity of feeling which should exist between sister states of the same confederacy.

We clip from the Commonwealth a condensed account of Capt. Craig's statement at the Court House in Frankfort; so far as it goes, the account is correct but it is not as full as it should be; we understand that a full report, sustained by documentary evidence will shortly be laid before the public through the columns of the Louisville Journal.

We are gratified to find that the health of the Capt. is not materially affected by the distasteful attempt made upon his life by the cowardly assassin who, shot him in the back; and that although still suffering from what threatened to be a vital wound, there is all probability of his health being fully restored in time.

Grand Prize Ball

The great ball of the season comes off at the Capitol Hotel, Frankfort, on Tuesday the 15th inst., under the general superintendence and for the benefit of Col. De Korponay, a gallant Hungarian gentleman, who distinguished himself, fighting gallantly on the fields of Mexico, for the rights and honor of his adopted country. Col. De Korponay has been very successful in teaching in Frankfort, Lexington, Louisville, &c., and at the approaching Ball 12 prizes are to be distributed to those 12 of his male and female pupils who display the greatest ease and grace in the use of their pedal extremities. The occasion will doubtless call together at the capitol of the state, a very brilliant assemblage of both sexes; and as no expense or trouble will be spared by the Col. to give eclat to the affair, volaries of fashion should not fail to make their appearance at the time and place appointed. By so doing they will not only enjoy a delightful evening's amusement, but aid a very estimable gentleman, who, in times past, has done good service in the cause of freedom and the inalienable rights of man.

Georgetown Female Institute.

The 4th session of this valuable Institution of learning commences on Monday the 5th inst., with a competent corps of teachers, and every provision requisite for the proper and agreeable training of the youthful female mind; the acquisition of a thorough English and ornamental education. The building occupied by Mr. Hand is admirably located in a private and pleasant part of the town; surrounded with ample ground for the accommodation of the pupils in their hours of relaxation; and every thing connected with this flourishing Institution is conducted in a manner to secure the present and permanent welfare of the pupils entrusted to the parental care and government of Mr. and Mrs. Hand. In view of these and other facts not enumerated, we can cordially recommend this Institution to parents and guardians who have daughters or wards to educate. For terms, &c., see advertisement.

We are to have the circus and menagerie here in the course of a few days; as the public are notified by an advertisement in another column. Messrs. Robinson & Eldred promise great wonders! among others is the extraordinary exhibition of one of the performers walking on the wall; a feat which has rarely if ever been seen in this vicinity.

Johnston has been elected Judge of the City Court of Louisville over Judge Joyce, the present incumbent.

Edward Garland, the present county Judge, has been re-elected. Quirey and Thurston have been elected Sheriff and County Court Clerk.

Dancing School.

We would call attention to the card of Mr. Richardson; who has closed one class of scholars to the infinite satisfaction of his patrons, and will commence another session on Saturday, the 12th inst. As he is competent and well qualified to teach "the poetry of motion," we cordially commend him to the patronage of our liberal minded fellow citizens, see his card in another column.

We understand that Gov. Powell has rejected the petition in favor of a respite pardon for Weigert, sentenced to be hung at Lexington on Saturday next, (12th inst.) for the murder of Cushing.

Under the ministrations of elders Gano and Rogers, over thirty persons have joined the Christian Church in Millersburg.

The Election

On Monday last, in town, passed off very quietly in view of the number of "whisky boys" engaged in piling up a gony upon the backs of the cold blooded "milk and cider" boys. Not a fight of a serious character took place during the day; several little skirmishes amounting to little nothing occurred, and a saucy negro had to be tied up by the marshal according to law; but otherwise peaceful and pleasant feelings seemed to be the order of the day and night. During the evening the Georgetown Guards paraded in full uniform, marched round the town with martial music saluting in their progress various successful candidates for county officers. We are unable to furnish full returns this week for the county but the officers elect are:

Judge.—Ban Finnell; Sheriff.—W. T. V. Bradford; Jailor.—George Toppas; Assessor.—J. T. Griffith; Surveyor.—J. M. Ewing; Attorney.—W. S. Darnaby; County Clerk.—L. B. Dickerson; Coroner.—Reason Sowards.

The town officers elect are J. M. Shepard, Judge; Mort. Price, Marshal. The subscription to the South Elkhorn road is carried by 102 to 53.

In justice to Judge Finnell, whose supporters have been slanderously styled "Whisky boys," and other opprobrious titles, we must assure readers at home and abroad, that Judge Finnell so far from being a frequenter of taverns, is a strict temperance man, by practice and precept; his decisions on the liquor question, which set aside the tyrannical action of the police judge, were based upon high principles; a correct sense of justice between man and man, uninfluenced by party fanaticism or bigoted prejudice. Whatever his ardent and whole souled supporters may be slanderously styled, certainly Judge Finnell cannot be designated as a "Whisky boy!"

Hol Hol! The "Whisky Boys," it would seem from the result of the election on Monday are neither "whipped" nor have "they got a pretty good drubbing!" This peurile boast of those who in fanatical parlance styled the supporters, of Judge Finnell, "whisky boys," has met with its merited rebuke at the hands of the freeman of Scott county, who by an overwhelming majority have re-elected Judge Finnell to the post from which he would have been hurled, ay, even *vi et armis*, if it had been in the power of a fanatical few, temperance men, who flattered themselves that he was to be intimidated from the discharge of duty by intemperate and silly threats of "locking him in the Spring Branch!"

On behalf and in the name of a majority of the independent freeman of Scott county, who have signally rebuked fanaticism in the recent election, we throw back and repudiate with the contempt and scorn it so richly merits, the foul, false and slanderous cognomen of "whisky boys," so glibly applied to the "bone and sinew" of the town and county who have so nobly and so efficiently sustained Judge Finnell's decisions versus the pragmatic Maine law advocates, who would vainly attempt to dictate to the independent freemen of old Scott "what they should eat, and what they should drink, and wherewithal they should be clothed!" One thing has been clearly shown in this contest; and that is, that "whisky boys," as the voters of Scott are insultingly denominated by certain fanatical Maine law advocates, are individually and collectively, ever more than a match for "milk and cider" boys!

We congratulate our fellow citizens of the town, upon the election of Judge Shepard over his fanatical competitor; who, "dressed in a little brief authority, played such fantastic tricks before high heaven as 'e'en made' freemen curse the day when they had invested him with power to decide upon their relative rights. One thing is certain with reference to Judge Shepard; his decisions will be governed by a knowledge of the law and a conscientious regard for justice; and if we are again sent to prison for refusing to become an informer, we will respectfully submit, because we will know that we are not incarcerated by a judicial ignoramus because of one idea of fanaticism or at the dictation of a clique of partisans who look upon poor men, and those who differ from them in opinion as altogether unworthy even of the common courtesies of life.

We make these remarks for the benefit of those beligerent non combatants who have talked of inflicting condign punishment on us, for holding up their accs, as they justly deserve, to public reprobation. If there be any upon whom "the cap fits," let them "feather it!" Those who boast of their personal prowess should be prepared to carry out their boasts.

The "milk and cider boys" asked for an issue, and the "whisky boys" gave it to them. Though many of the former voted against their known principles and better judgment, the jolly "whisky boys," triumphed in the election of Judge Shepard by 13 majority! When will freemen be imprisoned again in the common jail for refusing to become informers?

Judge Finnell's majority is about 350. That of Billy Bradford is about 30; a tight race and well contested.

In our comments upon the result of the recent election, we do not wish to be understood as intimating anything in derogation of Mr. Kelly and the mass of his supporters. Mr. Kelly we know to be a clever, liberal minded gentleman; one who, under other circumstances it would have given us pleasure to support for any office with the gift of the people, for which he was qualified. We have no question that he would have discharged the duties of Judge with zeal and fidelity; as free from partisan prejudice or fanatical bias, as his successful competitor. In every way he commands our respect, and we utterly repudiate the idea that he would suffer himself to be made the tool of any fanatical clique for any purpose whatever.

The great mass of his supporters were among our most worthy, most liberal minded citizens; they supported him in good faith, with earnestness and sincerity. But he was unfortunate in receiving the support of a certain portion of the voters, whose political friendship was of that peculiar character, that they would have dropped him at any moment provided they could have been assured that they could defeat the election of Judge Finnell, even though it might be through the agency of an avowed enemy to our peculiar institutions. "We speak that which we do know; and I testify of that" of which we have some personal knowledge. A fig for such "milk & cider" friends. We congratulate our friend Kelly that of such friends he had but few; many would have annihilated his political aspirations in Scott county not only in this instance, but for all time to come.

THE ELECTION IS OVER.

The long and exciting canvass has come to a close, and as M. S. Allgaier thinks his advertisement will now be read, he would politely but earnestly call upon all who are indebted to him either by note or account to settle soon—if not sooner. I have waited patiently for seven months to five years found in suit, but if I am not paid up soon, I shall be forced, in self defence to put it to all who are owing.

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. H. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them failed to cure the most alarming cases of

GONORRHEA AND SYPHILIS.

Bennett's treatment, all the horrors of venereal and impure blood, impotence, Scrophulous, Gonorrhoea, Ulcers, pains and distresses in the regions of Procreation, Inflammation of Bladder and Kidneys, Hydrocele, Abscesses, Hemors, frightful Swellings, and the long train of horrible symptoms attending this class of diseases, are made to become as harmless as the simplest ailments of a child.

SEMINAL WEAKNESS.—Dr. H. devotes

a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, uniting the unfortunate individual for either business or society. Some of the sad and melancholy effects produced by early habits of youth are, weakness of the back and limbs, distensions of the head, dimness of sight, palpitation of the heart, dispepsia, nervousness, derangement of the digestive functions, symptoms of consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, self reproaching, aversion of society, restlessness, timidity, &c. are among the evils produced. Such persons should, before contemplating marriage consult a physician of experience and skill and be at once restored to health and happiness.
